

ANTHONY KELLY FOUNDER, PRINCIPAL ARCHITECT

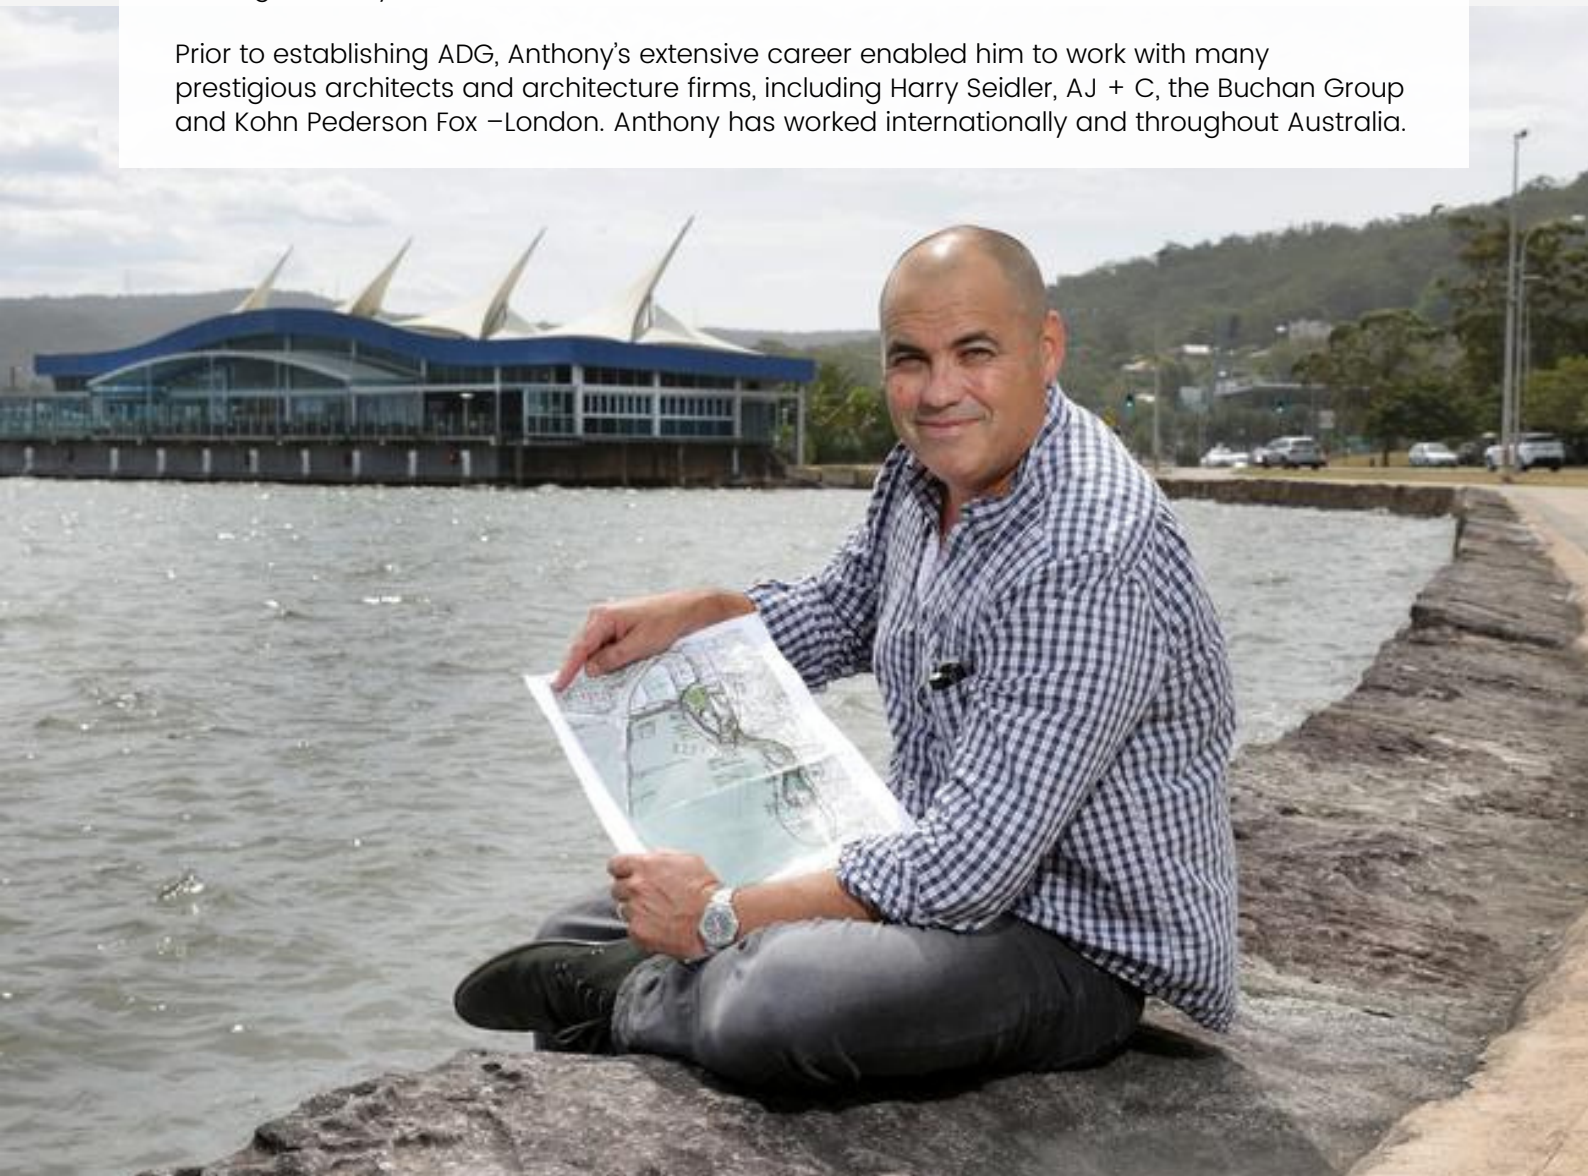

**RAIA Registered Architect 6999
B.ARCH (University of Technology, Sydney)**

Anthony founded ADG Architects in 2003, and has been producing high quality architecture and project management for valued clients that continue to demand his services.

Anthony has extensive experience in a broad range of projects, including high, medium and small scale residential work, exhibition centres, high-end retail, aged care, commercial, hotels, resorts, modular & prefabricated housing and Retirement living.

As a Director, Anthony provides a new, exciting, fresh design approach to all projects, adopting environmentally sustainable design initiatives. He provides innovative, cost effective solutions in Architecture, Master Planning and Interiors supported by a fully integrated building information management system.

Prior to establishing ADG, Anthony's extensive career enabled him to work with many prestigious architects and architecture firms, including Harry Seidler, AJ + C, the Buchan Group and Kohn Pederson Fox –London. Anthony has worked internationally and throughout Australia.
